

BILD87 (Freshman Seminar) The Earth and Its Biosphere

(1 unit/2 hrs per week)

Tuesdays, 1:00-1:50; 2:00-2:50; Room 1129 Muir Biology Building

Description: The human population has caused documented global warming, polluted the environment, and caused extensive species extinction. We face an environmental crisis of unprecedented magnitude. This seminar class will focus on these issues in the context of our complex human society.

Contact information:

Prof. Milton Saier

Division of Biological Sciences

Office: Room 4254 Muir Biology Bldg.

John Muir College, UCSD

Phone: 858-534-4084

E-mail: msaier@ucsd.edu

Times available: afternoons and early evenings

Office hours: Immediately preceding and following class, or by appointment

Topics to be discussed

(1) The Human Population
Vegetarian?

(6) Why Eat

(2) Global Warming
Consciousness

(7) Social

(3) The Ozone Layer
Ethics

(8) World

(4) Our Oceans and Forests
Governmental Policies

(9)

(5) Species Extinction

Grading policy

- There will be no exams or quizzes. Active participation is **STRONGLY** encouraged.
- Grading will be based on attendance and participation as follows:

(1) During the quarter, each student should attend at least two environmental seminars.

All will be announced in advance. Students will briefly report back to the class on the contents of each event attended and provide a personal critique of the material covered.

(2) Each student will write a "letter to the editor" (≤ 200 words) about some environmental/social issue of interest and importance to her/him, read it to the class, and submit it signed to Dr. Saier as well as to one or more newspaper(s) for publication.

(3) Each student will write a letter to one or more of our governmental official(s) on an environmental/social/political issue, read it to the class, and submit it to Dr. Saier as well as the politician(s).

(4) All students who are eligible to vote in the U.S. should have registered to vote. It is the responsibility of every citizen in a democratic country to become informed and vote. Only then can we hope to inspire the maintenance of a democratic way of life.

Suggested California newspapers for submission (with e-mail addresses):

UCSD Guardian editor@ucsdguardian.org [Must
specify as UCSD student]

Coast News letters@thecoastnews.com

North County Times letters@nctimes.com

San Diego Union-Tribune letters@uniontrib.com

Los Angeles Times letters@latimes.com

San Francisco Chronicle letters@sfchronicle.com

San Jose Mercury letters@mercurynews.com

Sacramento Bee opinion@sacbee.com

Orange County Register letters@ocregister.com

Note: Submissions must include full name, status (e.g., freshman student at UCSD), full address, telephone number and e-mail address. They may contact you to verify your identity. Any other newspapers that you may prefer are equally acceptable.

Most newspapers and magazine provide e-mail addresses for submission of editorials in each issue. They often pay for these if accepted for

publication, providing incentive. They also provide directives concerning length, style, content, etc., when required. It's exciting to see your own thoughts and efforts in print; you just need to overcome the activation energy required to do it. I'm merely trying to help you with this by providing additional incentive.

Suggested California politicians to contact:

Senator Barbara Boxer

Senator Dianne Feinstein

Etc., etc., depending on your district

The link is <http://capwiz.com/mygov/home/>. If you enter your zip code, you get a list of your specific elected officials. You can select an official and then the website will let you type in a message to them. Unfortunately, there is no obvious way to send to a bunch of officials all at once, but that may be okay because it is noted that politicians often ignore emails that were sent to a bunch of people all at once. If the email is addressed just to them they are more likely to read it. Also, if the email greets them by name (i.e., Dear Senator Boxer), they are more likely to read it.

Members of the class are also encouraged to join environmentally concerned student or community groups on and/or off campus. Participation in outreach programs, Earth days, and protests can be useful for bringing the important issues to the attention of the general public and other students. Do your part!
