Discussion Sections

Monday 8:00 – 8:50 pm, Cognitive Sciences Building 001 Monday 9:00 – 9:50 pm, Cognitive Sciences Building 001

Economics 110B Macroeconomics

Course Description

This course is a continuation of Economics 110A, and will build upon the models presented in that class. We will extend the basic IS-LM model to examine how expectations affect the performance of the economy. We will then discuss how the rest of the world affects the domestic economy. Finally, we will look at causes and cures for economic depressions, slumps, and hyperinflations. The prerequisite for Economics 110B is Economics 110A.

Course Textbooks

<u>Required Textbook</u>: "Macroeconomics" by Olivier Blanchard, 4th edition. We will be covering chapters 14-20 and 22-26. If time permits, we will also cover chapters 21 and 27. <u>Strongly Recommended</u>: Student Study Guide by David Findlay.

Course Web Page and Podcast

A course web page is available at http://webct.ucsd.edu

It will include information relevant to the course, such as announcements, practice problem sets and tests, solutions, to end of chapter problems, syllabus, schedule and more. You should check this page regularly.

Audio podcasts of our class lectures will be available at http://podcast.ucsd.edu

Lectures and Discussion Sections

Class attendance is an individual student responsibility. Frequent absences may adversely affect class performance. If you should miss a class, it is your responsibility to get the notes and any information provided in class. There are weekly discussion sections for this course. They are not mandatory. However, you should attend them since the TAs will go over practice problems, the kind of problems you may encounter on exams. The first discussion section will take place October 4th.

Course Readings

The reading assignment for our course is outlined in the tentative class schedule below. Lectures will focus on the more difficult material in the readings, but you will be responsible for all of the material in each chapter. You will get more out of this class if you read the required chapters prior to each lecture.

Grading

40% Midterm Exam 60% Final Exam

The midterm examination is scheduled to **Tuesday**, **Nov** 2nd, at lecture time. The final exam will take place on **Thursday**, **December** 9th from 8:00 am to 11:00 am and will be cumulative. The dates for the exams are not negotiable. There are no make up exams. If you miss the midterm for a justifiable and verifiable medical/legal reason, your midterm grade will be your grade on the final. Otherwise you will receive a zero, no exceptions!! You must take the final exam to receive a grade in this course.

Excuses for missed midterms must be pre-approved by the instructor (except when this is not possible in an emergency situation). Students who make initial contact after the exam will have to document why they could not make contact prior to the exam. In addition, a student who misses an exam due to physical illness will be required to provide documentation from a health care professional indicating why the student was physically unable to take the exam. All documentation and an additional signed written statement explaining the relevant circumstances of the absence must be provided to the instructor within two working days of the student's return to campus. Failure to comply with any of the above in the specified manner will result in a grade of zero for the midterm.

The overall course grade, computed using the weights specified above, will be curved. In general, the class average corresponds to the lowest B-.

Academic Integrity

Students are expected to do their own work, as outlined in the UCSD policy on Academic Integrity. Cheating will not be tolerated, and any student who engages in suspicious conduct will be confronted and subjected to the disciplinary process. Students found guilty of academic dishonesty will earn a failing grade for the course. In addition, the Council of Deans of Student Affairs will impose a disciplinary penalty.

Tentative Schedule (exams dates will not change)

Date	Number of Lectures	Торіс	Textbook Chapters
Sept 23 rd – Sept 30 th	3	Class Introduction Expectations: The Basic Tools	14
