## BIMM 101 Recombinant DNA Techniques Fall 2010

Dr. Mandy Butler Dr. Cindy Gustafson Brown

mabutler@ucsd.edu cgb@ucsd.edu York 3080 D H&SS 1145 E

Lectures: Tues- Thurs 12:30 -1:50 PM Center Hall 214

Labs: B01 and B02 T-Th 2:30 – 6:30 PM York 4318 and 4332

B03 and B04 W-F 2:00 – 6:00 PM York 4318 and 4332

B05 T-Th 2:30 – 6:30 PM York 4418

### Learning objectives:

 Learn the theory behind molecular techniques, and the applications of the methodologies in biological research

- Become proficient at basic molecular biology techniques
- Learn the importance of proper controls in designing experiments and interpreting results
- Improve lab math skills and ability to graph data correctly
- Learn to make logical conclusions from experimental data
- Become familiar with bioinformatics databases and applications
- Learn to find, read, and evaluate primary literature
- Become aware of the implications of the technology for society

Yangbin Gao GAO <u>y8gao@ucsd.edu</u>
Michael Porter mjporter@ucsd.edu
Risa Broyer <u>rmaruyam@ucsd.edu</u>
Trish Tran <u>p8tran@ucsd.edu</u>
Linh Truong ltruong@ucsd.edu

### Required texts:

BIMM 101 Lab Manual from University Readers

*From Genes to Genomes* by Dale (1<sup>st</sup> or 2<sup>cd</sup> edition) on reserve at BML and electronic version available from UCSD computer

http://onlinelibrary.wiley.com/book/10.1002/0470856912

Readings on WebCT (webct.ucsd.edu)

#### Required Materials – needed by second day of class:

Labcoat (the bookstore has cheap ones)

UV blocking safety glasses (also at bookstore)

Lab notebook with carbon copies (bookstore or Grove general store)

Remember that lab attendance is required – if you miss two labs, you will be asked to drop the course. If you are ill, you must leave a message with your instructor, not your TA, and make up the lab in a way that we will determine. You must be on time for lab; the TAs go over the experiments at the beginning of lab, and also quizzes are administered then.

### **Grading:**

- **1. Quizzes:** Starting Sept 30 and Oct 1, there will be a quiz on Thursday or Friday at the beginning of lab (see schedule on Webct). The quiz will cover the lecture and lab experiments from the previous week. There will be six quizzes, each of which is worth 4% of your final grade. Total = 24% of final grade. If you come into lab late and miss the quiz, you will receive a zero for that quiz.
- **2. Homeworks and lab reports:** there will be 1 lab report worth 20% of your grade and two homeworks, one worth 10%, and one worth 6%. Total =36%.

Although you will be doing the experiments and collecting data with a partner, you must hand in your own homeworks and lab report, written in your own words. **Copying someone else's lab report or homework is cheating (see below). You must submit your lab report to Turnitin.com** 

Late policy: homeworks and lab reports are due at the beginning of the lab on the assigned date. For each day thereafter, you will lose 10% off the total.

- **3. Exams:** there will be two midterms, one on Oct. 26 worth 15% of your final grade, and and one on Dec. 2, worth 25% of the final grade.
- **4. Lab performance** There are no points for lab performance per se. However, your effort, attitude, and the success of your experiments will be considered when assigning the final grade, especially if you are on the borderline between two grades. If you miss one lab with no excuse, you will lose 5% from your final grade. If you miss two labs, you will receive an F for the course.
- **5. Lab notebook**: it is mandatory that you keep a lab notebook, with carbon paper. The notebook must contain the following (see back of lab manual for more details): You will need to attach carbons of relevant labs to all homeworks and lab reports you hand in (I will indicate on lab reports which lab #s to include). The carbons will be part of the lab report and homework grades.

#### Final grade:

The final grade is based on a straight average of your scores.

97 + = A +

93 - 96 = A

90-92 = A-

87-89 = B+

83-86 = B

80-82 = B-

76-79 = C+

70-75 = C

65-70= C-

**Policy on cheating**: anyone caught cheating (includes plagiarizing lab reports, cheating on a test, or changing an answer for a regrade) will be reported to the Academic Integrity Office.

Note: Just coming to lab does not ensure that you will get a passing grade in the class. You must hand in all assignments and get passing scores on those assignments (an average of 65) to get a C- in the class.

**Letters of recommendation:** if you think you may want a letter of recommendation at some point in the future, please save your lab reports and tests. Letters of recommendation will only be written for students who receive an A and who have been active participants in the in the course.

# BIMM 101 Winter 2010 Student contract:

to take the quiz and will receive a 0 sco	on a day a quiz is given, I will not be allowed ore for that quiz.  Date
