Political Science 125A: Communities and the Environment

Course Overview:
As individuals, we live in our communities and in the environment around us. But how can our communities both use and conserve that environment? This course examines the idea that communities can play an integral role in conserving their local environments by looking at the challenges and opportunities in community-based conservation. We will build our understanding from the small and (relatively) simple up to the large and complex, by looking at environmental and resource conservation through the lens of individual incentives, community governance, state activity, and global alternatives. Through these topics, you will learn to identify and evaluate the political choices that have been and that can be made in environmental conservation and governance; and you will learn to identify and evaluate the political choices and tools available for remaking and restructuring environmental governance according to your own values and preferences, whatever they may be.

Student Responsibilities:
In order to achieve the course goals, you will need to read, watch, and digest the course texts, think through and complete the assignments, and participate fully in course activities and discussions. These are all necessary for the completion of the various assignments (paper, exams) which will give you the opportunity to apply the knowledge, understanding, and skills you will gain in the course. Any changes to the syllabus (including exams/due dates and required readings) will be posted to the TED page for this course, which you should check regularly {ted.ucsd.edu}.

Required Texts:
The course books and films will be available on reserve at Geisel Library {reserves.ucsd.edu}; to access films or electronic reserves off-campus you will need to enable a web proxy or vpn on your computer (to learn how to set this up, go to: libraries.ucsd.edu/services/computing/remote-access/index.html). Some required course readings will be provided on the course TED page {ted.ucsd.edu}. Help accessing TED can be found here: {acms.ucsd.edu/units/iwdc/password.shtml}. In addition, two of the course readings are available for purchase in the bookstore and for borrowing on reserve at Geisel Library. These are:

Student Evaluation:
To earn a grade in this course, you must complete: two in-class exams; one short paper; and one in-class final exam. Any student who fails to complete one or more required assignments will not pass the course. These four items will be weighted, with an additional participation grade, as either: 1) Participation - 5%; In-class exam #1 - 20%; In-class exam #2 - 25%; Short paper - 25%; and Final exam - 25%; or 2) Participation - 5%; In-class exam #1 - 15%; In-class exam #2 - 20%; Short paper - 30%; and Final exam - 30%. Your final course grade will be based on the higher calculation of the two options. Exams will be based on lectures, presentations, readings, and films.
In-class exam #1 is scheduled for: Friday, October 19th, in class. In-class exam #2 is tentatively scheduled for: Friday, November 9th, in class. The due date for the short paper is tentatively scheduled for: Wednesday, November 28th, at the beginning of class. The final exam is scheduled for: Monday, December 10, 2012 from 11:30am-2:29pm (location TBA). Please double check with the course instructor and teaching assistants for any and all dates/times, as they are subject to change (with plenty of forewarning).
Incompletes or special exams will be given only in *pressing and properly documented* cases and in accordance with UCSD policy; petitions for these must be timely. If, for any reason, you are having difficulty with an assignment, you should seek help from the instructor or TAs in a *timely* manner and *before the deadline*; the instructor has office hours at the time/place listed above, and by appointment, *specifically* to help you with the course materials and assignments.

**Students with Disabilities:**

Students with disabilities who may need accommodations are encouraged to notify, as soon as possible, both the instructor and the Office for Students with Disabilities (http://osd.ucsd.edu) in order to work out the particulars. Note: both the instructor and the Office for Students with Disabilities must be notified well in advance of any course deadlines or due dates.

**Academic Honesty:**

Your instructor takes academic dishonesty very seriously. Any student violating UCSD’s Academic Dishonesty or UCSD’s Student Conduct policies will earn an ‘F’ in the course and will be reported to their college Dean for investigation. Committing acts that violate Student Conduct policies, and which result in course disruptions, are cause for suspension from UCSD. See (http://www-senate.ucsd.edu/manual/appendices/app2.htm#AP14) for more information.

Students also agree that by taking this course all take-home assignments will be subject to submission for textual similarity review to Turnitin.com for the detection of plagiarism. All submitted assignments will be included as source documents in the Turnitin.com reference database solely for the purpose of detecting plagiarism of such assignments. Use of the Turnitin.com service is subject to the terms of use agreement posted on the Turnitin.com site. Explanations for using Turnitin.com will be provided in class.

*Tentative* Course Calendar:

**Week 0: Introduction**

**Week 1:**

**The Tragedy of the Commons?**

Edwards 2008: How to Read a Book [9p]

Hardin 1968: The Tragedy of the Commons [5p]

Leung and Magee 2012: Lily pond trashed during Balboa Park water-gun fight [2p]
