

# ECONOMICS 176: MARKETING

Fall 2016  
MWF 3:00-3:50, PCYNH 122

Maxim Sinitsyn, [msinitsyn@ucsd.edu](mailto:msinitsyn@ucsd.edu)  
Office Hours: Tu 2-4 in Econ 111

TA  
Chen Liu ([chl110@ucsd.edu](mailto:chl110@ucsd.edu))

Office  
SH 232

*Course Objectives:* In Econ 176, we will examine the role of marketing in the economy. You will learn how economic modeling is used to study marketing phenomena. We will also review empirical work that illuminates the connection of these theoretical approaches to the real-world practices. Finally, you will get hands-on experience with the techniques of marketing research.

*Prerequisites:* Econ 120C is a prerequisite for this course (concurrent enrollment in Econ 120C is permitted). We will examine several empirical papers that utilize the material you learned in the econometrics sequence. Working knowledge of estimating discrete choice models is essential for the successful completion of the marketing research project.

*Suggested Textbooks and articles:*

Train, K. (2009) *Discrete Choice Methods with Simulation*. Cambridge University Press.  
It is available on his website at <http://elsa.berkeley.edu/books/choice2.html>

Khan, R. and D. Jain, 2005. "An Empirical Analysis of Price Discrimination Mechanisms and Retailer Profitability," *Journal of Marketing Research*, 42(4), 516-524.

Pepall, L., Richards, D., and G. Norman (2008) *Industrial Organization: Contemporary Theory and Empirical Applications*. Blackwell Pub., Malden, MA. Sections 5, 6, and 7.5. It is on reserve in the library.

*Exams:* Grading will be based on two homework assignments (5% each), one midterm (20%), a final examination (30%), and a marketing research project (40%). All exams are closed book, and you may not use calculators and cell phones during the exams.

*Marketing Research Project:* The marketing research project consists of two parts: a proposal (20% of the final grade) and an econometric analysis (20% of the final grade). For the first part, you will have to identify a hypothetical marketing situation faced by an organization and design a survey, with which it would be possible to collect the data relevant for studying this situation. For the second part, two surveys will be chosen for in-class data collection. You will perform an econometric analysis of this data and write a 3-5 page report about your findings.

*Schedule:*

Week	Topics
1	Discrete Choice Models; Description of the Marketing Research Project

2	Logit Models;
---	---------------

3	Logit Models; HW1
---	-------------------

4	Logit Models; Stata Sessions
---	------------------------------

5	Logit Models; HW2
---	-------------------

**Midterm (Nov 2<sup>nd</sup>)**

6	First-Degree Price Discrimination
---	-----------------------------------

**The Marketing Research Project Proposal is due Nov 9<sup>th</sup>**

7	Third-Degree Price Discrimination
---	-----------------------------------

8	Second-Degree Price Discrimination, Quantity Discounts
---	--

9	Quality Choice, Damaged Goods
---	-------------------------------

10	Bundling and Tying, Advertising; Review
----	---

**The Marketing Research Project Analysis is due Nov 30<sup>th</sup>**

**Final: Dec 9<sup>th</sup>, 3:00-5:00**
