

**BILD 3: Organismic and Evolutionary Biology**  
**A00: MWF 11:00-11:50 AM, Peterson Hall 108**  
**B00: MWF 3:00-3:50 PM, Peterson Hall 108**

#### **PROFESSOR CONTACT INFORMATION**

Dr. Sarah Stockwell (sarahs@ucsd.edu)  
Office: Humanities and Social Sciences (HSS), Room 1310  
Office hours: Fridays 1:30-2:30 PM, HSS 1310 or HSS 1145L.

#### **HEAD INSTRUCTIONAL ASSISTANT CONTACT INFORMATION**

A00: Elizabeth Bullard <embullar@ucsd.edu>  
B00: Alex Neu <aneu@ucsd.edu>, Matthew Nedjat-Haiem <mnedatha@ucsd.edu>

**NOTE:** Please contact me only in case of an emergency. The best way to contact me is via email. **Please email your instructional assistant (IA) or one of the head IAs (see above) for all other inquiries.** In all emails, **please put BILD 3 in the subject line** to indicate your email is about this course. Because there are so many students in this course, we cannot answer individual questions about course content and these emails will be deleted. Attend lectures, discussion sections, IA and professor office hours, and talk to your fellow students to get answers to individual questions. Or ask during lecture!

#### **COURSE WEBSITES**

**Reading assignments to complete before class and lecture slides to download after class:**

**TritonEd.ucsd.edu** (click on BILD 3 link).

**YOU WILL NEED TO CHECK THE TritonEd SITE SEVERAL TIMES A WEEK.**

Video Podcast: [podcast.ucsd.edu](http://podcast.ucsd.edu)

#### **COURSE DESCRIPTION**

BILD 3 is an introduction to the biological fields of evolution and ecology. Ecology is the study of the relationships between living organisms and their environment. To best understand why there are so many different kinds of living things and their myriad of complex interactions, we will study evolution and evolutionary processes. We will also focus on organismal diversity and the importance of a general understanding of these topics within biology so as to be better stewards of the earth's biota. We will also discuss human impacts on global climates, species extinctions, environmental alterations, and the role of conservation.

#### **REQUIRED MATERIALS**

- **Textbook:** Campbell Biology, 11<sup>th</sup> edition. **NOTE: This is a different textbook than what UCSD BILD courses have used in the past.** Starting in fall 2018, BILD 1, 2, and 3 began using Campbell Biology rather than Campbell Biology in Focus. Make sure you have the right book.
- I will assign brief readings from the textbook for most lectures, and there will be reading quiz questions at the beginning of each class, so you need access to the book to succeed in the class. Used copies may be available online or at the bookstore, and the book is on reserve at Geisel Library. I have arranged with the publisher to make an excerpt of the textbook available that includes only the chapters we will use in this class, which is less expensive than the full textbook.

This is available only at the UCSD bookstore; look for the jellyfish on the cover. ISBN for the excerpt: 9781323677223

- The publisher of Campbell Biology offers various supplemental materials including a CD, a web site called Mastering Biology, and a book of exercises. These supplemental materials may be useful to you, but they are NOT required.
- **iClicker:** Older versions of the iclicker can be used as long as the remote ID can be read and the remote can be registered on TritonEd. You cannot share an iclicker remote with another student enrolled in this class (but you can share with someone who is not in our class).

## **GRADING**

100 Points: Midterm

200 Points: Final (cumulative)

20 Points: Clicker participation in lecture (see below)

20 Points: Clicker quizzes at the beginning of each class (see below)

27 Points: Discussion section participation/attitude (3 points per required discussion section)

35 Points: Homework/in-section work

There will be a small number of extra credit points available; details announced later. Extra credit points will be added after the final points for the class have been curved, if a curve is applied.

## **CLICKERS**

We will be using clickers in class. This is a response system that allows you to answer questions I pose in class. There will be two kinds of clicker questions:

- 1) Quiz questions: At the start of each class, there will be clicker questions that will be graded on correctness. One will be a question on the reading due for this lecture, and one will be an exam-style question on the material from the previous lecture or the previous week's required discussion section. Grades on these quizzes will be based on the proportion of each day's quiz questions that you answered correctly. These are closed-book quizzes, so you must answer without consulting the book, your notes, other students, etc.
- 2) Participation questions: There will be other clicker questions during lectures, which are intended to spark discussion and to help both of us — you AND me — gauge how well you are understanding the material. These are graded only on participation (you get credit for clicking in, regardless of which answer you choose).

To receive credit, you need to register your iclicker remote using the link on our TritonEd course menu. iclickers will be used during every lecture.

**See the last pages of the syllabus for more details on clickers and clicker grades.**

**The following actions are considered cheating on clicker quizzes and will result in an automatic zero on ALL clicker points and a report to the Academic Integrity Office: clicking in for a classmate who is not in lecture, looking at another student's clicker to copy their answer, or having someone else click in for you while you are not in lecture.**

For the first full week of class, we will be practicing with the clickers and the points will not count. This is a great opportunity to make sure you know how to use your clicker and your clicker is working properly. I will post the points on TritonEd so you can check. Starting the first lecture of the second

week, you will receive points for answering clicker questions in lecture. I will assume your clickers are working properly by this time. See the end of this document (*Clicker Instructions*) for details.

## LECTURES

Check TritonEd for the reading assignments to be completed by the beginning of each lecture. All material presented in lectures (and in the readings) is fair game for the exams. Do not expect to skip lectures and still do well in the course. Lecture slides will be posted on TritonEd.ucsd.edu after each lecture, but they are, at best, outlines, and essential material will be presented in class that does not appear on them or in the textbook. Participating in in-class discussions is also important to your understanding of the material. Lectures will be posted as a video podcast within 24 hours after each class time and can be accessed at podcast.ucsd.edu. Be aware that the podcast misses material that's presented on the chalkboard.

## DISCUSSION SECTIONS

IA-led discussion sections **are required** unless noted on the section schedule below. You must attend the discussion section you registered for. You will receive points for participating in discussion section. Sections will meet beginning in the first full week of classes. Sections will discuss assigned readings, discuss material from lecture, or do exercises. **All material from section readings is fair game for the exams.** See the IA list below for information regarding times and locations of discussion sections.

Homework assignments are due **in section**. If you know you won't be able to attend section that week for some reason, you can give the assignment to your IA ahead of time. **Late assignments will not be accepted.** Other accommodations will be made on homework only under extraordinary circumstances. Please understand that accepting late work in less extreme cases is unfair to other students.

## EXAMS

There is one midterm worth 100 points and a final exam worth 200 points. Exams will cover material covered in lecture, readings assigned for lecture and section, and section exercises. Use the learning objectives as a guide to what lecture/reading material you need to know for the exams. The midterm will contain material for that section of the course up to the lecture preceding the exam. The final exam will be cumulative, covering the whole class but weighting the second half of the class more heavily. Exam scores will be available after grading is complete, but the exams will not be returned. Questions concerning exams will be addressed in Discussion Sections or in IA and/or Professor office hours. **We will check photo ID at each exam, so please bring a photo ID. Students who do NOT have photo ID will not be permitted to take the exam.**

**There are no make-up exams.** If you miss an exam, then you will be required to provide official documentation of an unavoidable emergency (serious illness, etc.). Without such documentation, you will receive no points for that exam. If you miss the midterm AND have valid documentation, the proportion of your grade that is based on your final exam will be increased to cover the missed midterm. If you miss the final exam AND have valid documentation, you will receive an incomplete for the course and be re-tested in the next quarter.

**TritonEd:**

**Reading assignments:** By the end of each lecture day, I will post the reading assignment for the next lecture on TritonEd. You should complete this reading assignment by the start of the next class. There will be a clicker quiz on the reading at the beginning of each class.

**Lecture slides:** Research suggests that students learn best if they take independent notes, so I do not post lecture slides in advance. Lecture slides in PDF form will be available on TritonEd (<https://TritonEd.ucsd.edu>) within 48 hours after the lecture was given. I will number slides to help you refer to them in your notes. If you are registered for the course or on the wait list, you should have access to the course web site now.

**Access:**

Instruction on how to access TritonEd can be found here: <http://acms.ucsd.edu/students/index.html>. Concurrent enrollment (extension) students are not added automatically. Extension students can bring proof of enrollment to the ACMS Help Desk (Applied Physics and Math bldg. 1313, M-F, 8:00-4:30) to obtain TritonEd access. More information for extension students can be found here: <http://extension.ucsd.edu/student/index.cfm>.

**GRADING**

Your final letter grade will be based on your **TOTAL** number of points. If you get over 90% of the points you will receive an A, over 80% you will receive at least a B, etc. If needed to adjust the distribution of letter grades upward, grades will be based on a curve. The curve will only be used (if it is used) to move letter grade thresholds down, so it can only help your grade, not hurt it. For those taking the class pass/no pass (P/NP), the minimum final grade to receive a grade of P is a C-. The final course curve is based on the students that are enrolled in the course at the end of the quarter. Please note that the University will not allow us to change a letter grade after they are turned in except in cases of demonstrable clerical error.

**WAIT LIST**

If you are on the wait list for this class you will be automatically added if space becomes available. If you have any concerns, please contact the Biology Student Affairs Advising Services office at 858-534-0557 or go to their website (<http://biology.ucsd.edu/undergrad/advising-services.html>).

**Enrollment questions:** Administrative, advising, or registration questions should be submitted via the Virtual Advising Center ([vac.ucsd.edu](http://vac.ucsd.edu)).

**ACADEMIC HONESTY**

Integrity of scholarship is essential for an academic community. The University expects that both faculty and students will honor this principle and in so doing protect the validity of University intellectual work. For students, this means that all academic work will be done by the individual to whom it is assigned, without unauthorized aid of any kind.

Specifically, no student shall

- Knowingly procure, provide, or accept any unauthorized material that contains questions or answers to any examination or assignment to be given at a subsequent time.
- Complete, in part or in total, any examination or assignment for another person.

- Knowingly allow any examination or assignment to be completed, in part or in whole, for himself or herself by another person.
- Plagiarize or copy the work of another person and submit it as his or her own work.
- Employ aids excluded by the instructor in undertaking course work or in completing any exam or assignment.
- Alter graded class assignments or examinations and then resubmit them for regrading.
- Submit substantially the same material in more than one course without prior authorization

Any violation of UCSD's Policy on Integrity of Scholarship will be reported to the Academic Integrity Office. If you are caught cheating on an exam, you will receive an F for the class.

If you do not understand these expectations and authorizations, please speak with the Instructor as soon as possible. Please read the official UCSD policy at <http://students.ucsd.edu/academics/academic-integrity/policy.html>

### **ETIQUETTE FOR EMAILS AND IN THE CLASSROOM**

All emails to professors and IAs should be polite and respectful, include your **first and last name** in the body of the email, and have **BILD 3 in the subject line**. Do not rely on email as a sure and immediate form of communication with the instructor. The most certain way to get your questions answered is to ask in section/lecture or attend office hours.

*You are expected to arrive on time for lecture, turn off cell phones, and respect your classmates.*

**Please do NOT post my lectures or class documents on public websites** like Course Hero or others. I work hard on my lectures and do not appreciate the material being made public for anyone to see or download.

### **SPECIAL ACCOMMODATIONS**

Students requesting accommodations and services due to a disability for this course need to provide a current Authorization for Accommodation (AFA) letter issued by the Office for Students with Disabilities (OSD), prior to eligibility for requests. Receipt of AFAs in advance is necessary for appropriate planning for the provision of reasonable accommodations. OSD Academic Liaisons also need to receive current AFAs. For more information, contact the OSD at (858) 534.4382 (V); (858) 534-9709 (TTY); [osd@ucsd.edu](mailto:osd@ucsd.edu), or <http://osd.ucsd.edu>. **You will need to coordinate scheduling of exams with me. All of these arrangements should be made within the first two weeks of the quarter.**

### **BILD 3 TIPS FOR SUCCESS**

Here is the best strategy for getting an A in this class:

- 1) Do the reading assignments (posted on TritonEd) before each class.
- 2) Go to lecture, participate in discussions, and take notes.
- 3) Pay attention to the learning objectives provided. I base exams on these.
- 4) Read "How to study for BILD 3," posted in the "Learning Objectives and Exams" section of the TritonEd site.

- 5) When you take notes, write down a summary and essential details of the lecture; don't try to write down every word. The process of synthesizing and summarizing the lecture in your notes helps you learn the material.
- 6) Go over your notes within the next day or so and fill in details missed in lecture or topics you didn't understand using material presented in the book or online or in discussion section.
- 7) If you miss lecture, listen to the podcast and take notes as if you were in class. However, it's better to come to class; I use the blackboard often and that does not show up in the podcasts.
- 8) Study in groups! It's more efficient and helps build your confidence. It's a big class and a big university, and you will do best if you build a network of peers to learn with and get support from. Quiz each other on the learning objectives and other class material to find out what you actually know vs. what you thought you knew until you had to explain it to a friend!
- 9) Reflect on how many of the Lecture Review quiz questions you get right, and how confident you are in your answers. These are the kinds of questions you should expect to see on exams.
- 10) Go to your discussion section to have questions answered, discuss topics in detail, and get extra help and guidance.
- 11) Ask for clarification during lecture. **No really, ask questions during lecture!**
- 12) Go to the professor and your IA's office hours and ask questions. It's not an imposition; we expect and want you to do it! The best students ask for help.

The amount of material presented in this course can seem overwhelming if you don't keep up on a regular basis. I will make an effort to adjust the lectures to your pace. However, because the lectures build on each other, you must put a constant and steady amount of effort into the lectures. If you fall behind, the interaction between the different lectures will make it difficult for you to recover. If you keep pace, this course should be rewarding.

Bring any questions to discussion section, contact IAs through email or office hours, or come to my office hours. Office hours are the best place to ask complex questions – you will get a much more thorough answer. Don't wait until the last minute. You should have a clear understanding of all the examples - why was each example important? Use the text to reinforce concepts discussed in lecture.

If you are having academic difficulty, OASIS (<http://oasis.ucsd.edu/>) can help. They provide tutoring, as well as classes in study skills and time management. If you are having personal difficulties, do not hesitate to seek help at Psychological and Counseling Services ([psychservices.ucsd.edu/resources\\_students\\_web/resources\\_students.html](http://psychservices.ucsd.edu/resources_students_web/resources_students.html)), which is free to students. They can help you get over many types of hurdles.

**Problems?** If you have serious medical or personal problems during the quarter, the university does allow medical withdrawals. Contact the Biology Student Affairs Advising Services office at 858-534-0557 or go to their website (<http://biology.ucsd.edu/undergrad/advising-services.html>).

## CLICKER INSTRUCTIONS

It is your responsibility to have your clicker with you at lecture and to make sure it is working properly. **There will be no make-up opportunities for clicker questions, for any reason, nor can you get clicker credit for handing in questions on paper, etc.**

### Clicker Grading

#### Participation questions:

If you answer clicker questions in at least 80% of the lectures during quarter, you will get full credit. If you answer questions in less than 80% of the lectures, your participation grade will be based on the proportion of lectures in which you answered questions. For example:

- Answered questions in 70% of lectures: Score = 70% (14 points out possible 20)
- Answered questions in 90% of lectures: Score = 100% (20 points)

#### Quiz questions:

If you answer questions on *at least* 80% of the quizzes during the quarter, your grade will be calculated as if the remaining quizzes didn't happen; your grade will be based only on the quizzes you were present for. If you answer *less than* 80% of the quizzes, the missing questions will be counted as wrong answers. For example:

- Answered quiz questions in 92% of the lectures and got 87% of the answers correct. Overall quiz grade: 87%.
- Answered quiz questions in 75% of the lectures and got 87% of the answers correct. Overall quiz grade:  $(.75)(.87) + (.25)(0) = 65\%$ .

If this seems complicated, all you really need to know is: make sure you answer the clicker questions for at least 80% of the lectures!

### Recommendations

- Bring extra batteries (clickers require 2 AAA batteries)
- Put your name on your clicker
- Cover the ID number on the back with a piece of clear tape to prevent it from rubbing off. Make a note of your ID number in case it becomes unreadable.

### Register your clicker:

**You must register your clicker through TritonEd to receive credit for responses during class.**

**If you have not registered your clicker by October 26, then it will be too late and you will receive zero clicker points.**

Register your clicker using the link on our TritonEd page. On the left side of the screen, there is a list with Syllabus, Lectures, etc. At the bottom of that list is iClicker Registration. Click on that and follow the instructions. If you have used a clicker for a previous class, and registered it through TritonEd, you do not need to register it again.

**NOTE:** The instructions that come with your remote ask you to register your clicker at [www.iclicker.com](http://www.iclicker.com). While you are welcome to do this, it is not necessary.

You will not see your clicker points on TritonEd until you have registered your clicker. To ensure your clicker is working properly, please register **RIGHT AWAY**. Every student in this course must have their own clicker to receive clicker points.

### Using your clicker

Turn your clicker on with the orange power button. Set it to the frequency in our room. I will ask questions, and you will respond by pushing buttons A – E. Please wait until I start the voting before you respond. There will be a timer on the screen when the voting has begun. When your answer has been received, you will see a checkmark at the top of the clicker screen. While the timer is going, you can change your answer as many times as you want by pressing different buttons. Like all technologies, clickers sometimes malfunction. This is why I give full clicker credit if you answer 80% of the questions or more. **I do not adjust scores in other ways, so don't ask.**

### Lost clickers

If you lose your clicker mid-quarter and use a different clicker, you need to change your registration in TritonEd *and* you need to email one of the head IAs (see page 1 of the syllabus for their addresses) with this information **before the next lecture**): a) your student ID number b) your clicker ID.

### Clicker Troubleshooting

Sometimes clickers break, and some days there is a good reason for missing lecture. **That is why you receive full credit for only answering 80% of the questions.** It is your responsibility to use this grace period to learn how to use your clicker and make sure that your clicker is working, as I do not adjust scores for malfunctioning clickers.

**To be clear, if your clicker is not working, I will NOT award points retroactively, so you MUST figure out why it's not working immediately. No exceptions.**

If you have problems, go through the troubleshooting guide below.

If you are not getting the points you deserve:

- Be sure you have registered. This means through TritonEd (NOT at [www.iclicker.com](http://www.iclicker.com))
- Make sure your remote is on the correct frequency
- Make sure you wait until I start the question before you answer – you should see the timer going.
- Make sure you answer before time has run out. No answer is accepted after the time has ended
- Every student in this class needs their own clicker – if you are sharing with another student one of you will not get any points.
- Are your batteries still good?

If you have done everything correctly, but your clicker is still not working, please see one of the IAs for assistance. They will help you troubleshoot your clicker and check it. If your clicker is malfunctioning, the bookstore will exchange it. We cannot do anything to check your clicker over email, nor can we check it before or after class. **It is your responsibility to make sure you are getting the points you deserve.** If there is a problem, you need to solve it or see one of the IAs right away so we can resolve the problem for future lectures.

**Schedule of lecture topics (subject to change at instructor discretion):**

Week 0 (Sept. 28):

Introduction to the class

Week 1 (Oct. 1-5):

Introduction to evolutionary biology

History of evolutionary thought

Week 2 (Oct. 8-12):

Evidence of evolution

Week 3 (Oct. 15-19):

Natural selection

The genetics of populations

Week 4 (Oct. 22-26):

The genetics of populations (continued)

Phylogenetic trees

Week 5 (Oct. 29-Nov. 2):

Speciation

History of life on Earth

**Friday, November 2, 6-7:20 PM (outside of class): Midterm exam**

Week 6 (Nov. 5-9):

History of life on Earth (continued)

Human evolution

Week 7 (Nov. 12-16):

Biodiversity

*(Note: no lecture or discussion sections on Monday, November 12)*

Week 8 (Nov. 19-23):

Physical environment and biosphere

*(Note: no lecture or discussion sections on November 22 or 23)*

Week 9 (Nov. 26-30):

Population ecology

Community ecology

Week 10 (Dec. 3-7)

Ecosystem ecology and climate change

**Saturday, December 8th, 11:30 AM – 2:30 PM: Comprehensive final exam**

**Important Dates:** Last day to drop without a “Withdrawal” (W) on transcript: October 26. Last day to drop with a W: November 9. Notice: As of Fall 2018, the Registrar has moved the W deadline from week 9 to week 6 (Nov. 9).

## DISCUSSION SECTION SCHEDULE

Readings and worksheets for discussion sections can be downloaded from the TritonEd website.

Week	Activity
1 (starts 10/1)	Get to know your class and syllabus scavenger hunt
2 (starts 10/8)	Natural selection reading discussion
3 (starts 10/15)	Genetic drift exercise
4 (starts 10/22)	Population genetics exercise
5 (starts 10/29)	Phylogenetics exercise
6 (starts 11/5)	Macroevolution reading discussion
7 (starts 11/12)	Biodiversity Show and Tell: Wednesday-Friday discussion sections*
8 (starts 11/19)	Biodiversity Show and Tell: Monday and Tuesday discussion sections*
9 (starts 11/26)	Ecology reading discussion
10 (starts 12/3)	Climate change activity

*\*Because of the Veterans' Day and Thanksgiving holidays, each student will attend discussion section only ONCE for weeks 7-8. If your section meets on Wednesday, Thursday, or Friday, you will have section in week 7 only. If your section meets on Monday or Tuesday, you will have section in week 8 only.*

## LIST OF IAS AND DISCUSSION SECTIONS

You must attend the discussion section you are registered for in order to receive credit.

If there is a particular week in which you have a special, valid reason for needing to attend an alternate discussion section, email your IA and the IA of the alternate discussion section to see if they are able to accommodate you. You must get permission from the alternate IA before attending their section.

### IAs for A00 lecture class (11:00 AM):

IA	Email	Discussion section day and time	Discussion place	Office hour time and place
Uma Talagadadivi	utalagad@ucsd.edu	Mon. 1:00p-1:50p	HSS 1315	Mondays 2-3 PM, Goody's
Ahsan Usmani	ausmani@ucsd.edu	Mon. 4:00p-4:50p	Center Hall 220	Fridays 2:45-3:45 PM, Ledden Auditorium benches
Jaden Troxel	jrtroxel@ucsd.edu	Mon. 5:00p-5:50p	Center Hall 220	Mondays 12-1 PM, Art of Espresso coffee cart
Monica Wen	m4wen@ucsd.edu	Mon. 6:00p-6:50p	Center Hall 220	Fridays 12-1 PM, Blue Pepper Asian Cuisine
Siyue (Spencer) Wang	siw084@ucsd.edu	Mon. 7:00p-7:50p	Center Hall 220	Fridays 2:30-3:30 PM, Burger King (Price Center)
Nathan Singiri	nasingir@ucsd.edu	Mon. 8:00p-8:50p	Center Hall 220	Thursdays 3:50-4:50 PM, Art of Espresso cart
Sarah Ardell	smardell@ucsd.edu	Wed. 2:00p-2:50p	Solis 111	Wednesdays 12:30-1:30 PM, Audrey's (Geisel Library)
Elizabeth Bullard	embullar@ucsd.edu	Wed. 3:00p-3:50p	Solis 111	Wednesdays 2-3 PM, Art of Espresso coffee cart
Elizabeth Bullard	embullar@ucsd.edu	Wed. 4:00p-4:50p	Solis 111	Wednesdays 2-3 PM, Art of Espresso coffee cart
Letitia Yang	ley017@ucsd.edu	Wed. 5:00p-5:50p	Solis 111	Wednesdays 2-3PM at Perks Coffee
Samantha Kuglen	skuglen@ucsd.edu	Wed. 6:00p-6:50p	Solis 111	Wednesdays 3-4 PM, Galbraith Hall "Think Tank"
Gayatri Mainkar	gmainkar@ucsd.edu	Wed. 7:00p-7:50p	Solis 111	Mondays 12-1 PM, Art of Espresso cart

Students enrolled in the 11 AM lectures (A00) may come to the office hours of any IA listed above.

**IAs for B00 lecture class (3 PM):**

<b>IA</b>	<b>Email</b>	<b>Discussion section day and time</b>	<b>Discussion place</b>	<b>Office hour time and place</b>
Matthew Nedjat-Haiem	mnedatha@ucsd.edu	Mon. 5:00p-5:50p	Center Hall 217B	Mondays 4-5 PM, Price Center Theater lobby
Matthew Nedjat-Haiem	mnedatha@ucsd.edu	Mon. 6:00p-6:50p	Center Hall 217B	Mondays 4-5 PM, Price Center Theater lobby
Samadhi (Sam) Thavarajah	sthavara@ucsd.edu	Mon. 7:00p-7:50p	Center Hall 217B	Thursdays 4-5 PM, Roger's Coffee Shop
Xingsen (Charles) Chen	xic150@ucsd.edu	Tu. 5:00p-5:50p	Center Hall 203	Fridays 4-5 PM, Perks Cafe
Yuting Zhang	yuz884@ucsd.edu	Tu. 6:00p-6:50p	Center Hall 203	Tuesdays 12-1 PM, Muir Woods Coffee House
Christine Choy	c3choy@ucsd.edu	Tu. 7:00p-7:50p	Center Hall 203	Mondays 4-5 PM, Muir Woods Coffee House
Crystal Hsu	crhsu@ucsd.edu	Wed. 11:00a-11:50a	Center Hall 203	Tuesdays 3-4 PM, outside of Goody's
Sydney Saekow	ssaekow@ucsd.edu	Th. 5:00p-5:50p	Center Hall 203	Mondays 11 AM-12 PM, Middle of Muir
Alex Neu	aneu@ucsd.edu	Th. 6:00p-6:50p	Center Hall 203	Wednesdays 12-1 PM, Art of Espresso coffee cart
Alex Neu	aneu@ucsd.edu	Th. 7:00p-7:50p	Center Hall 203	Wednesdays 12-1 PM, Art of Espresso coffee cart
Rujul Patel	rdp007@ucsd.edu	Th. 8:00p-8:50p	Center Hall 203	Tuesdays 9:30-10:30 AM, Tables near Art Space (Price Center Level 2)
Nasha Luevit	nluevit@ucsd.edu	Fri. 1:00p-1:50p	HSS 1315	Mondays 1-2 PM, Muir Woods Coffee Shop

**Students enrolled in the 3 PM lectures (B00) may come to the office hours of any IA listed above.**

*Portions of this syllabus adapted from Carolyn Kurle.*
