

ECONOMICS 141: ECONOMICS OF HEALTH CONSUMERS, Summer 2013

T-TH 2:00 - 4:50 pm, HSS 1305 (no class July 4th)

Instructor: Dr. Melissa Famulari
e-mail: mfamulari@ucsd.edu

Office: Econ 221
Office Hours: Monday 11-2:00

Prerequisites: Econ 100C

Assessment

1. Final: 50% (Saturday, 8/03/13, 3:00-6:00pm, location TBA)
2. Midterm: 40% (Thursday of week 3, 7/18/13, in class)
3. Online Reading Quizzes: 5%. Grade based on correct answers to multiple choice questions, based on that night's reading. If you do the assigned reading, these will be easy! Due by beginning of class following day. Scores from lowest two nights dropped.
4. Participation: 5%. These will be questions in class to check your understanding of material. Not graded on correctness, just participation. Scores from lowest two days are dropped.

Course Objectives: It's an exciting time to be studying health economics! Health care reform is at the forefront of policy debate in the United States. We currently spend a huge share of our GDP (17.9% in 2011) on health care. The share of GDP going to medical care has grown rapidly, putting immense pressure on government and personal budgets. This course will examine the health care sector and health policy from an economic perspective. The focus of this course will be on the consumer side of the health market: the demand for health and medical care, the demand for health insurance, proposals to address the uninsured, employer provision of health insurance and the effects on worker wages, the decision to change jobs and retire, estimating the value of a life and valuing of health improvements, and international comparisons of health systems.

After taking this class you will be able to:

1. Analyze the consumption side healthcare markets from where markets work efficiently and where government intervention can improve efficiency.
2. Analyze current proposals for reforming healthcare system in the U.S. from an economic perspective and state what each policy will accomplish based on evidence from research.
3. Be able to critically assess value of life estimates and use these estimate in cost-benefit calculations.
4. Critically compare health outcomes across countries and assess whether outcome differences are attributable to differences in healthcare systems based on research.

These skills (and data analysis skills from the 120 series) are vital to succeed in economic consulting or graduate school. It's a competitive out there and doing well in coursework and getting good recommendations is crucial to landing a great job in your field or getting accepted into a good graduate school. This is a small class, I will get to know you very well!

Course Materials

Required Readings: There is NO TEXTBOOK REQUIRED for this class (not worth it, quickly becomes out of date), so all the reading/viewing material will come from journal articles which you will find on TED.

Ted: This is where you access the syllabus, problem sets, old exams, class handouts, readings, your grades, a discussion board, etc.

Administrative Issues:

- (1) Exams are closed book and electronic free: you may not use any notes, electronic devices, books or consult other classmates.
 - (2) Any student found guilty of academic dishonesty will earn a failing grade for the course. In addition to this academic sanction, the Council of Deans of Student Affairs will impose a disciplinary penalty. For a review of UCSD policy, please see <http://www-senate.ucsd.edu/manual/appendices/app2.htm>.
 - (3) If there is a mistake adding points on your exam, bring it to my attention and I will correct it immediately. If you believe an exam has not been graded properly, you may ask for a regrade within a week of the exam being returned. I will regrade your entire exam. The regraded score will be your grade for the exam. You may not ask for another regrade or go back to your first grade.
 - (4) If you have a documented disability, bring your documentation to me as soon as possible so that I can make suitable accommodations for you. If you believe that you may have a disability and will desire accommodation, please register with the Office for Students with Disabilities as soon as possible. For information on the steps for academic accommodation, please see <http://www-senate.ucsd.edu/manual/appendices/app3.htm>.

7/2: Current Issues in Health, Overview of US Health System and the Demand for Health and Medical Care

FGS Ch. 7 “Demand for Health Capital” [scanned pages]

Council of Economic Advisors (2009), “Economic Case for Health Reform”

7/4: NO CLASS

7/9: Demand for Health and Comparative statics (how the demand for health is affected by changes in income, prices and education)

A. Changes in the Price of Medical Care on Health Spending

Gruber, Jonathan (2006) “The Role of Consumer Copayments for Health Care: Lessons from the Rand Health Insurance Experiment,” Prepared for the Kaiser Family Foundation. [Pages 1-15].

Michael, Anderson, Carlos Dobkin, and Tal Gross (2012), “The Effect of Health Insurance Coverage on the Use of Medical Services”, *American Economic Journal: Economic Policy*, Vol. 4, No 1. [Page 1-4, conclusion, Figure 1 & 2].

B: Changes in Income on Health Spending

Acemoglu, Daron, Amy Finkelstein, and Matthew Notowidigdo (2013) “Income and Health Spending: Evidence from Oil Price Shocks” forthcoming *Review of Economics and Statistics*. [Read pages 1-5].

C. Changes in Education on Health

Cutler, David and Adriana Lleras-Muney (2006), "Education and Health: Evaluating Theories and Evidence." NBER #12352. [Section 1 and 3].

7/11 Uncertainty, Risk Aversion, and the Demand for Insurance

Arrow, Kenneth, "Uncertainty and the Welfare Economics of Medical Care," *American Economic Review*, Vol. LII, December 1963, 941-973.

Kaiser Family Foundation. "Private Health Insurance: A Primer." 2010. [pp. 8-21]

Insurance with Asymmetric Information (hidden characteristics or actions)

I. Moral Hazard:

- A. Is Moral Hazard important in the Market for Medical Care? How Responsive is the Demand for Medicine to a Reduction in Price?
- B. Possible Responses to Moral Hazard: Coinsurance and Deductibles

II. Adverse Selection:

Einav, Liran and Amy Finkelstein, "Selection in Insurance Markets: Theory and Empirics in Pictures." *Journal of Economic Perspectives*, Volume 25, Number 1, Winter 2011, pp. 115-138.

- A. Is Adverse Selection Important in the Market for Medical Care?

Cutler, David M. and Sarah J. Reber, "Paying for Health Insurance: the Tradeoff between Competition and Adverse Selection." *Quarterly Journal of Economics*, May 1998, pp. 433-466.

Finkelstein, Amy and Kathleen McGarry, "Multiple Dimensions of Private Information: Evidence from the Long-Term Care Insurance Market," *The American Economic Review*, Vol. 96, No. 4 (Sep., 2006), pp. 938-958

- B. Possible Responses to Adverse Selection: screen purchasers by offering selected price-quantity contracts, group insurance, compulsory insurance, require disclosure of private information.

7/16 – United States Health Care System: Employer Sponsored Insurance

Kaiser Family Foundation. "Private Health Insurance: A Primer." 2008. [pp. 1-8]

Gruber, Jonathan, "Tax Exclusion for Employer-Sponsored Health Insurance" *National Tax Journal*, June 2011, 64. [Pages 511-515 and conclusion.]

Gruber, Jonathan and Brigitte Madrian, "Health Insurance, Labor Supply and Job Mobility: A Critical Review of the Literature" in Catherine G. McLaughlin eds. *Health Policy and the Uninsured* (Urban Institute Press: Washington, D.C.) 97-178. (also NBER Working Paper Series, #8817, March 2002.)

Fang, Hanming, and Alessandro Gavazza. 2011. "Dynamic Inefficiencies in an Employment-Based Health Insurance System: Theory and Evidence." *American Economic Review*, 101(7): 3047-77.

David Cutler and Jonathan Gruber. "Does Public Insurance Crowd-Out Private Insurance?" *Quarterly Journal of Economics*, 1996. [pp.391-397]

7/18 Midterm

7/23 The Uninsured

- A. Kaiser Family Foundation. "Uninsured: A Primer." 2011. [pp.19-21]
- B. Covering the Uninsured:
Gruber, Jonathan. 2008. "Covering the Uninsured in the United States." *Journal of Economic Literature*.
- C. Potential Benefits of Covering the Uninsured:
Finkelstein, Amy and Robin McKnight, "What did Medicare Do? The Initial Impact of Medicare on Mortality and Out of Pocket Medical Spending," *Journal of Public Economics* 92, July 2008, 1644-1668.
- D. Implicit Health Insurance? Emergency Medical Treatment and Active Labor Act (EMTALA) and Bankruptcy
Mahoney, Neil (2010), "Bankruptcy as Implicit Health Insurance" Stanford job market paper.
- E. Expansions of Social Insurance
Gruber, Jonathan and Simon, Kosali, "Crowd-Out Ten Years Later: Have Recent Public Insurance Expansions Crowded Out Private Health Insurance?" *Journal of Health Economics*, March 2008, Volume 27, Issue 2, pp.201-217.

7/25 Placing a Value on Life and Determining the Value of Health Improvements

- Ashenfelter, Orley, "Measuring the Value of a Statistical Life: Problems and Prospects," *Economics Journal*, 116, 10-23.
- Murphy, Kevin M. and Robert H. Topel, "The Value of Health and Longevity" *Journal of Political Economy*, 2006, vol. 114, no. 5, p. 871-904.
- Becker, Gary, Tomas Philipson and Rodrigo Soares, "The Quantity and Quality of Life: The Evolution of World Inequality" *The American Economic Review* Vol. 95, No. 1, March 2005, p. 277-291.

7/30 Predicting the Impact of the ACA

- Kaiser Family Foundation. "Massachusetts Health Care Reform: Six Years Later." 2012. [pp. 1-9]
- Kaiser Family Foundation. "Consumer's Guide to Health Reform."
<http://www.kaiserhealthnews.org/stories/2012/march/22/consumer-guide-health-law.aspx>
- Does Massachusetts' Health Care Reform Point to Success with National Reform?

Journal of Policy Analysis and Management, Vol. 30, No. 1, 177–195 (2011). A point-counter –point article by Jon Gruber and Douglas Holtz-Eakin.
