The Politics of European Integration (120H)

UCSD Summer Session I – 2013

Instructor  Professor Graham Timmins
E-Mail  g.timmins@bham.ac.uk
Meetings  Tuesdays and Thursdays – 08:00-10:50
Location  HSS 1106A

Introduction
The EU today plays an increasingly significant, some would argue intrusive, role in the political affairs of European nation states. Whereas the vast majority of Europeans accept that membership of the European Union has been beneficial for their countries and that collective action is essential if contemporary Europe is maximise its influence on the global agenda, there is considerable concern regarding the impact that integration is having on national sovereignty and identity. Upon successful completion of this course, you will have:

• an appreciation of the historical context and treaty objectives of the European integration process;
• a basic understanding of the institutional framework and decision-making processes of the European Union;
• an awareness of the current political challenges confronting the European Union.

General Learning Resources
The course text is John McCormick, Understanding the European Union: A Concise Introduction, 5th Edition, London: Palgrave (2011) and copies should be available in the University bookstore. I will set recommended reading ahead of each class and it will be in your interest to complete these reading assignments. I have also indicated additional primary
sources which I think you will find useful. You can also download a useful official publication from the EU website by Pascal Fontaine which is entitled ‘Europe in 12 Lessons’ (2010) and should take a look at the European Union website as this will be an invaluable source of information for this course. You will also find EUobserver extremely helpful in keeping you informed on current affairs. You should, of course, also make use of the full library resources available to you at UCSD.

Support
I can be contacted via internet and my e-mail address is at the top of the syllabus. I will attempt to get back to you as soon as possible. I will also leave time at the end of each meeting for informal discussion. If at any time you require assistance or would like to speak with me about the course outside of class, please let me know and we will arrange a time for us to meet.

Course Programme
Class will begin prompt at 8.00am so please be there on time. The first part from 8.00 till 9.30 will be a lecture. There will then be a break from 9.30 till 9.50. The second part will be a discussion based around student presentations linked to the case studies. Please note too that if you are to obtain maximum benefit from class, it is essential that you have done the preparatory reading.

**Course Assessment**
Course assessment will comprise six discussion comments, a presentation and a seen examination question.

Discussion Comments
You will be required to submit by e-mail attachment a 500-word analysis on six discussion topics. The deadline for submissions will be 12 noon on the Friday in which the class takes place. No submission extensions will be granted. Should you not submit all six comments, you will have the option to submit comments on one or both of the final two classes. Each comment will carry 10 per cent of the total grade for this course = 60 per cent in total.

Presentation
Each student will be required to present on one of the case studies, and the presentation will should be approximately ten minutes in duration. You will be working with other students and should agree how best to organise your presentations in order that you do not duplicate the content. You may make use of powerpoint slides and other audio-visual material. The presentation will comprise 10 per cent of your final grade.

Seen Examination
The question for the seen examination will be distributed by e-mail on Friday 26 July and you will have one week to prepare your response, which should be approximately 1,500 words in length and must be submitted to me by e-mail no later than 12 noon on Friday 2 August. Please note that unlike the discussion comments, this response should be fully and properly referenced. The seen examination question will comprise 30 per cent of the total grade.

I will complete the grading process on the weekend of 3/4 August and will issue notification of final grades by e-mail on Monday 5 August.

Course Advice
If you can accept that there are no short cuts to the acquisition of knowledge, you will already be on the way to obtaining a good grade for this course. But, in more specific terms, the following advice may be useful:

- attend all class sessions and listen to what points are being highlighted;
- do the recommend reading and come prepared with questions;
- do additional reading when preparing the class comments and do not leave your work until the last minute;
- when writing your class comments and the seen examination, concentrate on explaining rather than describing events and issues;
- remember, although your opinions may be of interest, I would prefer to find out what you have learned;
- spend time organising your thoughts for the examination – a seen question is not an easy option as I will be expecting a higher level of knowledge and analysis than would be expected from an unseen question;
- if there is anything that you do not understand about this course, ask me and I will do my best to assist.
