Introduction

The end of the Cold War in 1990 and the demise of the bipolar confrontation between the US and USSR offered the vision of a new era of peace and stability in the world. Driven by the western ideas of political liberalism and the free market, the international community would develop cooperation and agency through strong and effective multilateral institutions, and by utilising international law would reduce if not remove the key ideological, cultural and socio-economic sources of international conflict. The situation in 2020 to the contrary reflects the development of a complex series of regional conflicts in the world. Understanding the nature of these conflicts and the agendas of the actors involved in them are critical in our attempts to and resolve these conflicts.

Successful completion of this course will facilitate:

- A critical appreciation of the causes and modalities of conflict in the contemporary world and attempts to prevent, manage and resolve international crisis.
- An overview of several crisis areas in the contemporary world and a critical appreciation of the dynamics of these conflicts and the actors involved.

Delivery Method

I will post a slide presentation together with recommended readings and videos to the module website in advance of each session. The expectation will be that you attend the webinars on a regular basis, have watched the presentations and undertaken preparatory reading and/or watched the recommended videos I have posted to the website. The anticipated private study time commitment for this course is 6-12 hours per week.

**Course Assessment**
Performance on the course is assessed through a combination of a webinar presentation and a course paper.
- Webinar Presentation (40%) – All students will present a 20 minute talk on an allocated case study and to provide a one page briefing document setting out the background context (which could be a combination of the historical, political and/or theoretical considerations), an overview of the actors involved and their agendas/strategies, and evaluation of the issues and debates surrounding the conflict/policy being analysed. Presentation duties will be allocated in the first session.
- Submission Deadline: the briefing document will be required 24 hours in advance of the presentation.
- Course Paper (60%) – All students will submit a 3,000 word paper on a case study of their choice. This could be the same as the webinar presentation or a different case study. The normal academic expectations concerning structure and presentation will apply, and the emphasis will be on demonstration of research and critical analysis.
- Submission Deadline: Friday 30 July 2021.

The expectations of the two assessment components will be discussed in detail in session 1. I do not use a grade curve. So if every student deserves A+, that’s what every student will receive. In broad terms, this is what I expect to see for each band.

A Excellent in terms of analytical focus, critical engagement and the balance of analysis, the range of materials used, and the style of writing and presentation.
B Good but not excellent. The difference between good and excellent is typically the level of focus and critical reflection i.e. showing deep awareness and understanding of the different sides to a discussion, evidence of reading and appropriate use of materials, in particular primary sources, a well-polished style of academic writing with correct use of grammar and punctuation together with full and correct references for attributed materials.
C Generally satisfactory in terms of the above but with some significant weaknesses in either some or all areas.
D Generally poor in terms of the above with some areas not meeting minimum standards.
F Does not meet minimum standards.

I use the following grading scale when recording grades.

**General Learning Resources**

There is no textbook for this course. I will however provide recommended reading and other materials for each class via the Canvas website. For those of you who are interested, I would suggest making use of the following publications as they provide a useful general overview on Security Studies and current conflict zones:

**Academic Support**

Should you require academic support, please contact me by email and I will respond as soon as possible. I am happy too to make time available for individual Zoom consultations where there is a need. Please remember though I am in the UK and there is a significant time difference, and keep in mind that I am a visiting lecturer and will not always be aware of the specific rules and regulations in
operation at UCSD. There may therefore be situations where it would be more appropriate to contact Natalie Ikker, the Undergraduate Student Affairs Advisor.
