"Knowing how to think empowers you far beyond those who know only what to think." – Neil deGrasse Tyson

Course Information

Course Description	BILD 4 is designed to be a collaborative environment for everyone to learn together and construct a shared understanding of the material. Active participation and contribution in classes and in the laboratory are essential because many ideas and laboratory methods that will be developed in these activities cannot be easily captured otherwise. Being able to communicate understanding, articulate confusion, and defend scientific arguments based on evidence and reasoning is both useful for learning and critical to success in any discipline. To encourage collaboration and community building, many class and laboratory activities and assignments will be done in teams, and grades will not be assigned on a curve. Instead of memorization, we will focus on developing an understanding of fundamental concepts and laboratory skills as they apply to different examples and learn to draw conclusions based on evidence and reasoning. We will utilize class and laboratory time to construct and apply our knowledge, troubleshoot challenging topics, practice problem solving, and develop skills in critical thinking. Laboratory reports and the research proposal will challenge us to think critically about data and experiments.
Credits	2
Instructor	Prof. Keefe Reuther (Call me Dr. Keefe or Dr. K) Email address: kdreuther@ucsd.edu (please put BILD 4 in the subject line)
Synchronous Course Elements	Lectures: Monday AND Wednesday 11:00am - 12:20pm Warren Lecture Hall (WLH) 2113 (all lectures will be recorded for both synchronous and asynchronous remote viewing) Labs: Your registered lab time (see next table) including some group work, some writing assignments and other assessments and projects.
Asynchronous Course Elements	Readings, some group work, some writing assignments and other assessments and projects.

BILD 4 Summer Session II 2022 – Schedule v1.0

Week	Meeting	Topic
1a	Tuesday	Welcome, Icebreaker
		Field Trip to Reserve (FW1)
1b	Thursday	Form final groups/make logo
		Pipetting (BB1 and BB2)
2a	Tuesday	Measure soil pH (SP1)
		Set up moisture (SP2)
		Save soil aliquots for FB and GB experiments (GB1)
		Plate soil samples (TB1)
		Start project ideas (SL)
2b	Thursday	Ecoplate setup (FB1)
		GROUP WRITING ASSIGNMENT #1 DUE FRIDAY MIDNIGHT
3a	Tuesday	Moisture part 2 (SP3)
		Analyze Soil Sample Plates (TB2)
3b	Thursday	Ecoplate Read and Analysis (FB2 and FB3)
4a	Tuesday	DNA purification
		PCR
		(GB2 and GB3)
4b	Thursday	Gel (GB4)
		Projects
		INDIVIDUAL WRITING ASSIGNMENT #1 DUE FRIDAY MIDNIGHT
5a	Tuesday	PCR Cleanup (GB5)
		Hopefully finish up projects
5b	Thursday	Group Writing Assignment
		GROUP WRITING ASSIGNMENT #2 DUE FRIDAY MIDNIGHT
Final		PowerPoint Presentations!

INSTRUCTIONAL ASSISTANTS A1ND LABORATORY SECTION TIMES:

Section #	Days	Time	Room	IA's
A01	TuTh	9a-11:50a	TATA 2301	Oscar & Ofir
A02	TuTh	9a-11:50a	TATA 2302	Min & Ofir

Instructional Assistants:

Name	<u>email</u>
Oscar	opartida@ucsd.edu
Min	senam@cusd.edu
Ofir	oartzi@ucsd.edu

LEARNING OUTCOMES:

- Collaborate with one another to learn foundation biological concepts and laboratory skills.
- Apply knowledge of molecular biology concepts and molecular techniques to plan experiments, explain and troubleshoot results.
- Demonstrate proficiency at the basic molecular biology techniques used in the lab.
- Explain the importance of proper controls in designing experiments and interpreting results.
- Perform basic lab math skills, statistical analysis, and graphing.
- Draw conclusions based on evidence and reasoning.
- Use basic bioinformatics databases and applications.
- Find, read, and evaluate primary literature.
- Collaborate with one another to learn foundation biological concepts and laboratory skills.

CONTACT:

This term we will be using Piazza for class discussion. The system is highly catered to getting you help fast and efficiently from classmates, the TA, and myself. Rather than emailing questions to the teaching staff, I encourage you to post your questions on Piazza. If you have any problems or feedback for the developers, email team@piazza.com.

Find our class signup link at: https://piazza.com/ucsd/summer2023/bild4_s223_a00

The best way to contact me directly is via email: kdreuther@ucsd.edu. On all emails PLEASE put BILD 4 in the subject line to indicate that the email pertains to this course. If you email about anything regarding your status in the course, please include your UCSD username, and PID. Please use Piazza instead of emailing Dr. Keefe for any course content questions.

LAB MANUAL, PPE, & PROPER LAB ATTIRE:

The lab manual is required for the course. You must have your own lab coat and goggles for the course. The lab coat must be thigh length. In the lab, you must wear proper lab attire at all times. This includes close-toes shoes, shocks, pants with no holes, and hair tied back. Basically, it is not safe for there to be any significant skin showing below the waist.

WEBSITE:

Everything related to the class is kept on the Canvas site (https://Canvas.ucsd.edu/webapps/login/). Announcements will be posted on the Canvas site. Check the site often! All grades will be posted on Canvas.

LEARNING PHILOSOPHY:

Science is like sport. Improving requires play and practice. You must experiment, take risks, think creatively, and work hard. My responsibility as your professor is to give you a space where you feel emboldened to do so. Active participation by engaging with the lecture material, asking and answering questions, and contributing to breakout sessions during discussion time is expected. Being able to communicate understanding, and confusion, is critical to success in any discipline, and is very useful for learning. To encourage collaboration, activities will be done in groups, and grades will not be assigned on a curve. Instead of memorization, we will focus on developing an understanding of fundamental concepts as they apply to different examples. Therefore, assignments and assessments will include questions that are based on solving problems in new contexts.

<u>Assessment:</u>

The general grading scheme is as follows, although it may be adjusted to improve everyone's grades if necessary. BILD 4 is not graded on a curve, i.e. 20% of students getting A, B, C, and such. Thus, the ability to do well in this course is not dependent on others doing poorly.

A+	96-100%	B+	87-90%	C+	77-80%	D+	67-70%	F	0-60%
Α	93-96%	В	83-87%	С	73-77%	D	63-67%		
A-	90-93%	B-	80-83%	C-	70-73%	D-	60-63%		

ASSESSMENT PHILOSOPHY:

As educators in this course, our primary goal is to help you develop the mindset of a biologist rather than just memorizing their knowledge. To facilitate this, the course is designed around the learning goals outlined earlier in the syllabus. Assessment is a crucial component of this process, encompassing all tasks for which you receive feedback or grades. This enables both you and the instructional team to monitor your progress towards mastering the skills embedded in this course.

SSII 2023 UC San Diego

While the grading guide's nine assessment categories may appear overwhelming, each is essential for evaluating your growth as a responsible, creative, and productive scientist in the laboratory. A single final exam cannot adequately achieve this objective. Adopting a more holistic approach to feedback and grading provides a better understanding of your strengths and areas for improvement.

To help you stay organized, we recommend establishing an intentional and user-friendly system to keep track of your goals and tasks. A calendar app is an excellent starting point, ensuring that each deliverable for every class is scheduled and regularly reviewed. For notes, thoughts, and other materials, you can explore various options such as paper and pen, Apple Notes, Notion, Evernote, etc. This class will support your organization with a schedule and grading guide in the syllabus, as well as weekly announcements and module pages listing all upcoming deliverables.

Inevitably, life events can interfere with your ability to attend class or submit assignments on time. Balancing these challenges with a fair grading policy is a complex task. Here are two guiding principles that underpin our approach:

- Life happens, and your privacy matters. Illness, family emergencies, or other unforeseen events might prevent you from completing assessments on time, and you should not be obligated to share these personal matters to your instructor or instructional assistants.
- 2. Grading policies have both advantages and disadvantages. While accepting late assignments could benefit many students, there are costs involved. Instructional assistants, who are often busy students themselves, need to manage their grading schedules effectively. Additionally, accepting late work after answer keys are posted is problematic. To balance these concerns, we will either drop a certain number of assignments for all students or adjust the weighting of missed assignments. This approach accommodates everyone, particularly those uncomfortable discussing their reasons for late or missed submissions.

While grades may currently be a primary focus, it's crucial to remember that once you embark on your chosen career or academic path, your skills, knowledge, motivation, and wisdom will take precedence. Focus on cultivating these attributes in each of your classes, ultimately building a solid foundation of knowledge and expertise. Prioritizing genuine understanding over letter grades is like ascending a solid mountain instead of a sand dune -your efforts yield meaningful progress, leaving you invigorated and closer to your goals, rather than drained and no further ahead.

PLEASE REFERENCE THE GRADING GUIDE ON THE NEXT PAGE!!!

BILD 4 Grading guide

DR. KEEFE SUMMER '23

Online Weekly Canvas Quizzes - 20%

- Each quiz will open Thursday at 5pm PST. You will have 45 minutes and 1 attempt.
- Your lowest score will be dropped except for cumulative last quiz.
- No late or makeup quizzes key posted the next day.

Due: Every Sunday night @ 11:59pm

Pre-lab Discussion Board - 5%

- There are 9 (1-2 per week) and your lowest 2 scores will be dropped.
- No late or makeup posts.

Due: Before the beginning of your lab time

Lab Research Notebooks - 10%

- Your group will collectively complete 1 each week in your group's Google Doc.
- Must be completed within 48 hours of the end of lab.
 Usually, you will finish during the lab time.

Due: 2 days after lab

Individual Writing Assignments - 10%

- There is one individual assignment.
- Late penalty is -2% per hour.

Due: Friday @11:59pm Week 4

Lab Participation - 15%

- If you miss 1 lab for any reason than you have to complete a lab makeup assignment.
- If you miss a 2nd lab there is a second makeup assignment.
- Missing more lab for any reason will result in lost points.

Your lab time

Group Writing Assignments - 15%

- There are two assignments.
- Late penalty is -2% per hour.
- Each group member turns in the same writing assignment separately. One is graded at random. Each person must submit to receive their grade.

Due: Friday @11:59pm Weeks 2 and 5

Lecture Participation - 10%

- You may miss up to 3 lectures and still receive full credit.
- Download the Mentimeter app. No account or \$ needed.

Lecture Monday and Wednesday

Final PowerPoint Presentation - 15%

 Poster presentations will involve each member of the group helping with a live poster presentation during the scheduled final exam time.

Due: Final exam time

GROUP WORK AND PROFESSIONALISM:

A major goal of the course is to learn to collaborate with others. Unfortunately, despite best efforts and intentions, groups do not always function optimally. Dealing with these challenges is a natural part of the learning experience. Everyone is expected to contribute fully and equitably to group work as part of the university learning community. If significant disputes occur over the relative contribution of individual members of the group, please bring them up with Dr. Keefe.

Unprofessional interactions consume time yet have no meaningful benefits to you, your fellow students, and/or the teaching team. Analogously in the workplace, being unprofessional to your colleagues or supervisors will only discount you. When you are discounted, you will not be invited for new opportunities that you may or may not be aware of. Professionalism can be demonstrated through individually demonstrating maturity and professionalism, as well as contributing meaningfully to our online. By default, every student is assumed to be professionally mature. Hence, this component is awarded to every student at the beginning of the quarter. During the quarter, based on observations by the teaching team, which includes but is not limited to one-on-one interactions, electronic communication, following deadlines, and follow-up conversations on grades, your professionalism credit may be deducted.

Example interactions with meaningful benefits:

- Following the course and university rules of Academic Integrity
- Developing deeper insight into course material, concepts, biology, and/or society in general
- Working collaboratively to improve in skill building and future opportunities
- Contributing to an inclusive learning environment
- Learning conceptually and meaningfully why full credit was not awarded for an assignment
- Clarifying course material that facilitates deeper learning
- Reporting errors or problems in class, on assignments, or for other course material
- Completing the work expected of you by posted deadlines
- Keeping up with reading information distributed by the instructor and IA's

Example interactions that have no meaningful benefits and thus should be avoided:

- Harassing and/or bullying the instructional team or other students.
- Asking questions when the information is already available or will eventually be known
- Not communicating with your group or IA when you will be absent or late. This
 applies both to the lab meetings and to any separate work meetings within your
 group.
- Editing the contribution section without proper collaboration with group members.
- Ignoring the directions or requests from the instructional team.

Additional enrollment and waitlist policies are available online (https://biology.ucsd.edu/education/undergrad/course/waitlist.html).

ACADEMIC INTEGRITY:

https://students.ucsd.edu/academics/academic-integrity/index.html

Students are expected to do their own work, as outlined in the UCSD Policy on Academic Integrity. Academic misconduct is broadly defined as any prohibited and dishonest means to receive course credit, a higher grade, or avoid a lower grade. Academic misconduct misrepresents your knowledge and abilities, which undermines the instructor's ability to determine how well you're doing in the course. Please do not risk your future by cheating.

Students suspected of AI violations on exams will be invited to Zoom follow-up meetings where they will be asked to (in real time, on video) justify their answers (before the graded exams or solutions are released). If the instructor isn't convinced during the meeting, or the student refuses to participate, they're submitted for AI violations.

Integrity of scholarship is essential for an academic community. The University expects that both students and faculty will honor this principle and in so doing protect the validity of University intellectual work. For students, this means that all academic work will be done by the individual(s) to whom it is assigned, without unauthorized aid of any kind. In this course, we need to establish a set of shared values. Following are values* adopted from the International Center for Academic Integrity, which serve as the foundation for academic integrity.

	As students we will	As the teaching team we will		
Honesty	 Honestly demonstrate your knowledge and abilities according to expectations listed in the syllabus or in relation to specific assignments and exams Communicate openly without using deception, including citing appropriate sources 	 Give you honest feedback on your demonstration of knowledge and abilities on assignments and exams Communicate openly and honestly about the expectations and standards of the course through the syllabus and in relation to assignments and exams 		
Responsibility	 Complete assignments on time and in full preparation for class Show up to class on time and be mentally and physically present Participate fully and contribute to team learning and activities 	 Give you timely feedback on your assignments and exams Show up to class on time and be mentally and physically present Create relevant assessments and class activities 		
Respect	 Speak openly with one another while respecting diverse viewpoints and perspectives Provide sufficient space for others to voice their ideas 	 Respect your perspectives even while we challenge you to think more deeply and critically Help facilitate respectful exchange of ideas 		

Fairness	 Contribute fully and equally to collaborative work, so that we are not freeloading off of others on our teams Not seek unfair advantage over fellow students in the course 	 Create fair assignments and exams and grade them in a fair and timely manner Treat all students and collaborative teams equally
Trustworthiness	 Not engage in personal affairs while on class time Be open and transparent about what we are doing in class Not distribute course materials to others in an unauthorized fashion 	 Be available to all students when we say we will be Follow through on our promises Not modify the expectations or standards without communicating with everyone in the course
Courage	 Say or do something when we see actions that undermine any of the above values Accept the consequences of upholding and protecting the above values 	 Say or do something when we see actions that undermine any of the above values Accept the consequences of upholding and protecting the above values

^{*} This class statement of values is adapted with permission from Tricia Bertram Gallant Ph.D.

CAMPUS POLICIES:

- UC San Diego Principles of Community
- UC San Diego Policy on Integrity of Scholarship
- Religious Accommodation
- Nondiscrimination and Harassment
- UC San Diego Student Conduct Code

Diversity and equity statement

It is important for us to make sure that how we teach this course and how we accommodate different student needs reflects the differences of race, ability, sexual orientation, age, and gender identity that enrich our classroom experience and campus. If you have any concerns related to diversity and equity in the course, please contact the instructor.

If you find yourself in an uncomfortable situation, ask for help. The university is committed to upholding policies regarding nondiscrimination, sexual violence, and sexual harassment.

STUDENT RESOURCES:

Learning and Academic Support

Ask a Librarian: Library Support

Chat or make an appointment with a librarian to focus on your research needs

Course Reserves, Connecting from Off-Campus and Research Support Find supplemental course materials

First Gen Student Success Coaching Program

Peer mentor program that provides students with information, resources, and support in meeting their goals

Office of Academic Support & Instructional Services (OASIS)

Intellectual and personal development support

Writing Hub Services in the Teaching + Learning Commons

One-on-one online writing tutoring and workshops on key writing topics

Supplemental Instruction

Peer-assisted study sessions through the Academic Achievement Hub to improve success in historically challenging courses

Tutoring – Content

Drop-in and online tutoring through the Academic Achievement Hub

<u>Tutoring – Learning Strategies</u>

Address learning challenges with a metacognitive approach

Support for Well-being and Inclusion

Basic Needs at UCSD

Any student who has difficulty accessing sufficient food to eat every day, or who lacks a safe and stable place to live is encouraged to contact: foodpantry@.ucsd.edu | basicneeds@ucsd.edu | (858) 246-2632

Counseling and Psychological Services

Confidential counseling and consultations for psychiatric service and mental health programming

Triton Concern Line

Report students of concern: (858) 246-1111

Community and Resource Centers
Office of Equity, Diversity, and Inclusion
As part of the Office of Equity, Diversity, and Inclusion
Inclusion the campus community centers provide programs and resources for students and contribute toward the evolution of a socially just campus
(858).822-.3542 | diversity@ucsd.edu

Get Involved

Student organizations, clubs, service opportunities, and many other ways to connect with others on campus

Undocumented Student Services

Programs and services are designed to help students overcome obstacles that arise from their immigration status and support them through personal and academic excellence

SSII 2023 UC San Diego

Office for Students with Disabilities (OSD)
Supports students with disabilities and accessibility across campus

PRIVACY PRACTICES:

(From https://cio.ucop.edu/privacy-tips-for-your-syllabus/)

This course is a community built on trust; as a learning community, we are collectively responsible for upholding privacy protections. In order to create a community built on trust and the most effective learning experience, our interactions, discussions, and course activities must remain private and free from external intrusion. We have obligations to each other to preserve privacy and cultivate fearless inquiry. We respect the individual dignity of all and will refrain from actions that diminish others' ability to learn.

As your instructor, I am committed to protecting your privacy by only using university-approved course technologies and adhering to the Family Educational Rights and Privacy Act

(FERPA) https://catalog.ucsd.edu/about/policies/notification-of-rights/index.html and Campus Privacy Office guidelines. This includes using your educational data only as allowed by FERPA, for example, for legitimate educational purposes such as submitting your final grades to the registrar's office.

LETTERS OF RECOMMENDATION:

If you think you may want me to write you a letter of recommendation (or any other instructor), please consider what a good letter would contain and how your actions in the course demonstrate the qualities you will want highlighted in a good letter. When students ask me for a letter of recommendation, I ask them to write to me about how they demonstrated critical thinking, leadership, collaboration, and professionalism. I will be specifically looking for examples of these qualities that I could have noticed during lab/lecture and office hours. Be sure to actively participate in the discussions, talk to me during the lab/lecture and my office hours: ask questions, offer your own ideas and interpretations of your results, bring interesting facts/papers that are connected to the material we are studying. If you don't actively show the qualities that are needed to write a good letter, it will be hard for me to write a letter that is meaningful and useful.

SSII 2023 UC San Diego

Therefore, in order to ensure I am able to write substantive, insightful, and informative letters, I am only able to potentially write letters for students who fit the following criteria:

- If you are applying for an undergraduate grant/job/program:
 - You must have received at least a "B-" grade in one of my courses or be actively enrolled and passing one of my courses.
 - You must have met with me more than once outside of class (e.g. office hours/Coffee with a Prof) OR the letter is more than 2 months from being due and we can schedule at least one significant meeting.
- If you are applying for a post-graduate program (e.g. med school, post-bacc program)
 - You must satisfy ONE of the following criteria:
 - You received an "A-" or higher in one course.
 - You took more than one class with me and demonstrated clear improvement.
 - You worked with me as an Instructional Assistant or in some other professional capacity.
 - AND you must ALSO satisfy ONE of the following criteria:
 - We have met and talked multiple times in a way where I was reasonably able to assess your potential for your applied program. Examples include office hours, IA meetings, or Coffee-with-a-prof.
 - The due date for the letter is greater than one academic quarter away and you commit to meeting with me at least once to have a formal conversation.

SUBJECT TO CHANGE POLICY:

Due to unforeseen circumstances, minor aspects of this syllabus may change. This includes changes to scheduling, grading values, and policy. It is the responsibility of the instructor and instructional assistants to announce changes with reasonable notice in multiple formats (e.g. lecture and Canvas announcements, email, etc.). It is the responsibility of the student to make note of these changes and communicate with the instructor if you have questions or concerns about the changes.
