## Course Information

- Course: Intro to Operations Research C (591707) - MWF, 10-11 am, CENTER 101
- Description: Deterministic and stochastic dynamic programming, differential equations and calculus of variations, computer simulation, inventory models.
- Prerequisite: Econ 172A.
- Course webpage: http://webct6web.ucsd.edu.

## Books and Materials

- No textbook required. Lecture notes and other materials at course webpage at WebCT.

## Calendar

- Change grade option or drop w/o "W" thru F, 27 APR; drop w/o "F" thru F, 1 JUN.

[^0]:    ${ }^{1}$ Please note that you MUST take the final exam with the rest of the class on schedule during finals week!
    ${ }^{2}$ I often give multiple versions of tests. If you have the right answers for some other version, you are busted.
