Office Hours: Thursdays 12:45-1:45pm

Web Page: ted.ucsd.edu

(Please check class web page for TA's office hours, contact information, etc.)

OBJECTIVES:

This course will introduce various theories about labor markets and evaluate how well those theories explain observed patterns in the data. After taking this course, you will know more about a) economic theory, b) the methods that economists use to test those theories and c) observed trends in wages, employment, education and other labor market phenomena. The class has a heavy public policy focus.

PREREQUISITES:

Econ 2 or Econ 100B.

PROBLEM SETS:

There will be (almost) weekly problem sets posted on the class web page. Problem sets generally will be posted Friday afternoons, and are “due” the following Friday, but *you do not have to turn in your answers to the problem sets, and they will not be graded*. Thus, the “due date” is just meant to serve as a signal of how quickly you should be moving through the material. On the day your problem set is due, I will post the answer key.

EXAMS: There will be one midterm and a cumulative final. Dates are **not** negotiable.

Midterm: Thursday, April 30th, 11-12:20pm, in class

Final Exam: Tuesday, June 9th, 11:30-2:29pm, location TBA

GRADES:

Midterm (40%), Final (60%). Grades for the course will be curved.

TEXTBOOK:

The basic text is *Labor Economics*, 6th Edition, by George Borjas, (Irwin McGraw-Hill, ISBN: 9780073523200), which is available at the Bookstore. The 5th Edition is also fine.

SUPPLEMENTAL READING:

These readings are required. You can download them from the Supplemental Readings folder on the class web page.

ADMINISTRATIVE ISSUES:

1. If you have a documented disability, please come to talk to me as soon as possible so that I can make suitable accommodations for you. If you believe that you have a disability and desire accommodation, please register with the Office for Students with Disabilities.
2. Academic dishonesty will not be tolerated. Students are expected to do their own work, as outlined in the UCSD Policy on Integrity of Scholarship: <http://www-senate.ucsd.edu/manual/Appendices/app2.htm>. Students found guilty of academic dishonesty will earn a failing grade for the course.

3. If you need to miss the midterm for a verifiable medical/legal/sports reason, your final exam will count for 100 percent of your grade in the class. Failure to notify me promptly that you must miss the midterm will result in a zero grade for the midterm. *Unexcused absences will also result in a zero.*
4. If you arrive late to an exam, I will allow you to take the exam in the time that remains *as long as no one has turned in his/ her exam and left the room.* Once a classmate has turned in his/her exam, you will earn a zero on the test if you arrive late.
5. UCSD now has automated waitlists. If you have any questions regarding adding the class, please refer to Triton Link or contact the undergraduate advisors in Sequoyah Hall 245. The Economics Department does not allow you to add a class after the second week of the quarter.
6. Midterms and exams that you do pick up will be kept for one quarter following the end of the course and then thrown away (at which point your scores cannot be disputed).

SCHEDULE:

This is a *rough* guide, and may change. It is up to you to keep up with the reading. You are responsible for all of the material in the chapters listed below, but exams will emphasize the material covered in class. You also will occasionally be asked to read supplemental materials posted on the class web page.
