POLITICS AND ECONOMICS IN CENTRAL AND EASTERN EUROPE

This course compares alternative political and economic orders as they operated and operate in the small states of Central and Eastern Europe. Two books and a packet of readings are required for the course. The books are:

--Lonnie Johnson, *Central Europe: Enemies, Neighbors, Friends*, 3rd edition

--Richard Rose, *Understanding Post-Communist Transformation: A Bottom up Approach*

Both the books and the packet can be purchased at the University Bookstore. Be sure to get the third edition of the Johnson book, otherwise you’ll be reading the wrong pages! They will also be on reserve at the Geisel Library; some, but probably not all, readings may be available on electronic reserves. Required readings not included in the course reader can be downloaded from the class web site:

http://www.polisci.ucsd.edu/ps126ab/

**Requirements**: Students will be required to write a total of about 18 pages in this course, consisting of a take-home midterm and final exam. Topics will be distributed in class or posted on the web site. Papers must be turned in through turnitin.com.

**Evaluation**: The final grade will be a weighted average of the grades on the papers, adjusted for class participation. Failure to participate in class is not penalized, but active participation is rewarded. Asking questions, by the way, "counts" as participation. Please note that you will not be able to answer the paper questions adequately based solely on the reading, so it is a good idea to plan on attending the class and taking notes as well.

Professor Comisso's office hours will be on Tuesday from 2:00-3:30 pm. You can also reach her by phone (4-3180) and e-mail (ecomisso@ucsd.edu).

[An overview of the course is contained in a review essay by Comisso and Gutierrez. The article, entitled “Eastern or Central Europe: Exploring a Distinct Regional Identity,” can be found on-line: http://escholarship.org/uc/item/13q5f145 .]
