Course Description:
What do we mean by “development”? Why have some countries and regions of the world been more successful in their efforts to promote development than others? Why should “we” (in the “developed” world) care about development challenges in the “developing” world, or should we? This course provides an introduction to competing conceptions and theories of development in the post-WWII period. We begin by critically evaluating dominant concepts, measures, and theories of development in light of case studies drawn from three regions of the developing world: Latin America, Sub-Saharan Africa, and Southeast Asia. We then shift our attention to 21st century sustainable development challenges across regions, and investigate the possibilities and limitations of existing international and national institutions and policies in addressing these challenges.

By the end of this course, students should be able to:

1. define, critically evaluate, and discuss competing conceptions, measures, and theories of development in the political science literature, including sustainable development as a normative and analytic concept;
2. assess the relative value of these competing theories by applying them to empirical studies drawn from three regions of the developing world: Latin America, Sub-Saharan Africa, and Southeast Asia;
3. identify, describe, and critically evaluate the role of relevant international and national level institutions and policies in addressing 21st century development challenges, especially as they impact developing countries; and
4. demonstrate proficiency in analyzing a specific sustainable development policy problem in a developing country case study of choice, identifying and critiquing competing proposals by key stakeholders, and formulating specific and concise policy recommendation(s) based on high quality evidence, using the format of a professional policy paper.

Course Requirements:
Summary:

1. Class participation: peer instruction/clickers  
2. Meet with me once, individually or in a group, before week 6 (discuss your bio form)  
3. Policy proposals due: **week 3, Wednesday, 23 Jan., 11:59 pm**  
   - Upload to TII.com on TritonEd by 11:59 p.m.
4. Midterm exam (in class): **week 4, Thursday, 31 Jan.**  
5. First draft policy paper due to TritonEd: **week 7, Weds., 20 Feb., before 11:59 pm**  
   - These can be uploaded to TII.com on TritonEd any time prior to deadline, but **no late papers can be accepted.** (Papers are randomly distributed at midnight for peer review.)
6. Feedback to two peers due to TritonEd: **week 8, Wed., 27 Feb, before 11:59 pm**  
   - Can be uploaded any time prior to the deadline, but **no late reviews can be accepted.**
7. Final policy papers due: **week 9, Wednesday, 6 March, before 11:59 pm**  
   - Upload final e-version to TII.com on TritonEd by 11:59 pm on Wed., 6 March  
   - Bring identical hard copy to class on Thurs., 7 March  
   - Both deadlines must be met to avoid late penalty (1/3 grade for each 24 hr. period late)
8. Final exam (in class), **Thursday, 21 March: 11:30 am – 2:30 pm**

TrigonEd: https://tritoned.ucsd.edu. From the main page for poli127, click on “Content” in the upper left menu. This will bring you to the course syllabus, policy paper rubric, policy paper guidelines, sample student policy papers, turnitin.com, and PeerMark access. If you have any questions, please let me or your TA know.

Exams:
There are two exams in this course: a midterm and a final. The midterm exam is worth 15% of your grade, and the (cumulative) final exam is worth 25%. Both exams will be administered in class and consist of short answer identification questions and an essay question. A study guide one week prior to the exam. Please note that exams cannot be made up without well-documented evidence of an emergency, or prior approval by the instructor.

Research Project:
In addition to midterm and final exams, this course requires that you research and write a short (2400 – 3000 words), double-spaced, 12 pt. font, 1 inch margins) policy paper focused on a development problem related to one of the U.N. Sustainable Development Goals in a country case study of your choice from one of the following three regions: Latin America, sub-Saharan Africa, Southeast or South Asia. For the purposes of this assignment, you will become a policy analyst employed by a governmental, nongovernment, or intergovernmental development organization of your choice. This assignment is designed to give you the opportunity to engage in further hone your critical thinking and writing skills in defending the policy positions you put forth, and enable you to investigate a specific development problem and case study not covered in the course. Detailed research and writing guides, and a grading rubric, can be found on the course content page of TritonEd. A library research guide can be found here: http://libguides.ucsd.edu/poli127. We love to talk about policy projects in office hours, so please come tell us about your research interests and findings as they evolve!

Class Participation:
As an upper-division political science course, it’s expected that you’ll come to class meetings prepared to discuss central questions, puzzles, and concerns that arise from course readings assigned for that day. To facilitate both small and large group discussions, we’ll use an innovative pedagogy developed by Harvard physicist, Eric Mazur (https://www.youtube.com/watch?v=Z9orbxoRofI), “Peer Instruction” (PI), with clickers. Research has documented statistically significant learning gains for students using PI.

We’ll begin experimenting with PI and clickers during week 2, but the “official” counting period will not begin until week 3. This should give you time to borrow or purchase a clicker. (You can buy new or used online, but be sure to purchase the i-clicker brand, which is what UCSD’s infrastructure supports.) Questions will be geared toward enhancing your understanding of course readings and lectures, and will help you prepare for exams and policy paper projects. In general, we will ask two types of questions: factual and discussion questions. Factual questions will focus on a central point from your readings, or a point covered in lectures. Pedagogically, these questions are used to strengthen your critical reading and thinking skills, and ensure that central concepts are generally understood before we move to a new topic. One point is given for correct answers, and .7 for participating. Discussion questions ask that you take a stand on a specific development problem or issue, using course materials as evidence. These questions are used to hone critical thinking and speaking skills, and specifically, your ability to put forth persuasive arguments based on logic and compelling evidence. For discussion questions, you will receive full points (1 pt.) for participating. In assessing your grade for this component of the course, you’re given a 20% buffer in case you forget your clicker, or you need to miss class for whatever reason. So, for example, if we ask 40 questions total over the quarter, and you receive 30 points, you can still earn an “A” (20% of 40 = 32; 30/32 = 93.75%).

Work load: As an upper-division course, the UCSD Academic Senate guideline is approximately three hours of work outside of class for each one hour in class, or approximately nine hours of work weekly outside of class. Each week, you will need to balance course readings with independent research on your policy projects, but readings and research assignments are designed not to exceed nine hours each week. If you find that time spent on weekly readings and research exceeds nine hours, please come see me or your TA mentor so that we can assist you with more efficient reading and/or research strategies.
E-mail Policy: Please use the designated forums on the TritonEd discussion board for all course and assignment-related questions so that everyone can benefit from information exchanged. The TAs and I will monitor the board Monday – Friday, but also feel free to help each other out. If you don’t hear back from one of us within 24 hrs., please send an e-mail to me with “poli127” in the subject line. We’re also available during office hours, and I’ll always be available for questions after class, so let’s try to get to know each other in this way, rather than e-mail. If you should have a personal matter, please do contact me by e-mail, and please remember to put “poli127” in the subject line, so that I can quickly locate it. Although days are busy with teaching and meetings, I have e-mail access most evenings, although not easily on weekends. If you should urgently need to reach me after 5 pm on Friday and before Monday morning, please feel free to call me at home: 858.201.1508.

Inclusive Classroom
The TAs and I are fully committed to creating a learning environment that supports diversity of thought, perspectives, experiences, and identities. We urge each of you to contribute your unique perspectives to discussions of course questions, themes, and materials so that we can learn from them, and from each other. If you should ever feel excluded, or unable to fully participate in class for any reason, please let me know, or you may also submit anonymous written feedback to our Undergraduate Advisor, Natalie Ikker. Please simply place your written feedback in an envelope with the course name and number, and bring to the front desk of the Political Science Department, addressed to Natalie. Natalie will bring these comments to my attention. UCSD Academic Regulations and Policies
Academic Integrity: Each student is expected to abide by UCSD’s policy on Integrity of Scholarship (https://senate.ucsd.edu/Operating-Procedures/Senate- Manual/Appendices/2) and to excel with integrity in our course. Students are expected to do their own work, as outlined in the UCSD Policy on Academic Integrity and published in the UCSD General Catalog. https://academicintegrity.ucsd.edu/excel-integrity/index.html. Although you are encouraged to work together in preparing for class discussions and exams, each student is expected to do their own work on all written assignments and in-class essays. In addition, all students must individually participate in clicker questions. (That is, it’s a violation of academic integrity to “click in” for your classmates.) Violations will be subject to disciplinary measures as outlined by the University. If you have any questions regarding this policy, please consult me or your TA.
Please also abide by UCSD’s Principles of Community https://ucsd.edu/about/principles.html and the Student Code of Conduct: https://students.ucsd.edu/_files/student-conduct/ucsandiego-student-conduct-code_interim-revisions1-16-18.pdf to support equity, diversity, and inclusion in our classroom.
Course Texts:
Four texts are available for purchase at the UCSD bookstore, but feel free to purchase these independently online or elsewhere. Multiple copies of all texts have also been placed on print reserves at Geisel Library, and the main text is available electronically (free!) from Geisel library (link below). If you choose not to purchase the texts, and experience any problems obtaining a reserve or electronic copy, please let me or one of the TAs know.

All additional course readings (articles, etc.) are available via electronic reserves from Geisel Library: http://libraries.ucsd.edu/resources/course-reserves. If you encounter any problems, please call 858.534.1212, or e-mail: reserves@ucsd.edu, or contact me.

Course Schedule
*Note: Although it’s rare that readings are revised during the quarter, occasionally I may do so to respond to a relevant current event or important emergent interests in the class. If there is a revision, I will always provide advanced notice, and updates will be posted on course lecture slides.

Week 1: What Do We Mean by “Development”? What is “Sustainable Development”? What are the U.N. Sustainable Development Goals?

**Tuesday, 8 January**: Course Introduction
Reading
None.

**Thursday, 10 January**: What Do We Mean by “Development”? How do we measure it? Why does this matter? Introduction to Sustainable Development and UN Sustainable Development Goals (SDGs)
Reading

- Drop-down menu "About": Please read "The Sustainable Development Agenda", including the FAQs.
- For each goal, click into the goal to get an idea of specific policy problem you’d like to focus on for your policy project.
- For Tues., please bring in draft form and be prepared to discuss:
  1. Your first choice of a UN Sustainable Development Goal (SDG) to research for your policy project, and why this goal is of interest to you.
  2. What specific policy problem(s) within this particular goal interests you, and why.
  3. Is there a specific case study from sub-Saharan Africa, Latin America, SE Asia, or South Asia within which you’d like to investigate this policy problem, and why.
Week 2: UN SDG’s, Global Inequality, and the Development of Development Studies

Tuesday, 15 January: What are the UN Sustainable Development Goals? What is their history?
Research workshop on policy projects. If possible, please bring laptops and login to the UCSD-Protected network at beginning of class. Guest: Annelise Sklar, UCSD Political Science librarian.

Readings:

Questions: What is sustainable development? Are the SDGs legally binding? How will they be implemented and monitored? Where do/will resources for the SDGs come from? How is climate change related to the SDGs? How do the SDGs differ from the MDGs?

Thursday, 17 January: How are inequality and poverty conceptualized and measured within countries, between countries, and globally? Are inequality and poverty related? If so, how and why?

Readings:

Week 3: Roots of the Development Project: Modernization and Dependency Theories – Begin Latin America

Tuesday, 22 January:

Wednesday, 23 January: E-version of policy proposal due to TritonEd/TII.com before 11:59 p.m.
